

AEO Electronic Unit for BD35F and BD50F

Discontinuation of Electronic Unit 101N0300

Date	Planned beginning of May 2010.	Valid from	Transition to replacement code numbers starts now.
Introduction	<p>As part of the ongoing code number reduction initiatives it has been decided to discontinue the AEO electronic unit code 101N0300.</p> <p>The replacement product code 101N0320 (available since 2006) includes identical AEO functionality as well as aluminium shielding – offering greater protection against EMC interference issues.</p> <p>For market replacements, 101N0320 is 100% compatible with 101N0300.</p>	Prices	The price of 101N0320 will remain unchanged but carries a small added premium for EMC shielding.
		Stock	We expect stock of 103N0300 to have expired by beginning of May.
		Literature	The relevant literature for compressors will be updated at the next planned revision.
Code numbers	<p>Discontinued product codes: 101N0300 single pack 101N0301 industrial pack (30 pcs.)</p> <p>Replacement product codes: 101N0320 single pack 101N0321 industrial pack (30 pcs.)</p>	Further info	Please get in touch with your Danfoss contact if any further information is needed.
